

# Environmental Policy

Caring for the environment is a key component of SAAM's mission and one of the five principles of the Sustainability Policy that guides our employees' conduct. In order to guarantee compliance at all operations and activities, we are committed to:

1. **Developing** a culture of environmental protection and respect for communities, fostering learning, training and leadership opportunities for our employees, contractors and suppliers.
2. **Implementing** an environmental management system to prevent and control environmental impact and continuously improve our performance.
3. **Managing** available water and energy resources efficiently and minimizing waste generation at all operations.
4. **Ensuring** compliance with domestic and international environmental laws and regulations and other standards to which SAAM commits with it

The CEO of SAAM and its subsidiaries are committed to allocating resources to properly implement and fulfill these commitments.

A handwritten signature in blue ink, appearing to read "Macario Valdés Raczynski".
